Underground Workshop Notice

February 27, 2002
10 am – 4 pm

Sempra Energy Headquarters
101 Ash Street, Auditorium #3
San Diego

In compliance with the Commission's Decision (D.) 01-12-009 issued December 11, 2001 in the Underground Electric and Communication Facilities Rulemaking Proceeding R.00-01-005, the California Public Utilities Commission's Energy Division posts and serves electronically this notice of a public workshop it will sponsor to facilitate input on the design of a standardized data reporting mechanism. The workshop will be hosted by SDG&E as shown above and allow participants to discuss and make recommendations on elements to be incorporated in the data collection and reporting system. The goal of the data tracking and standardized reporting is to allow the utilities, the Commission, and interested parties, to track the safety, service reliability, and lifetime cost for both overhead and underground projects and make valid and reliable comparisons between systems.

A data tabulation template drafted by the respondent electric utilities is attached to this notice.

The template will be the basis of discussion at the workshop.

Within ten days after the workshop, we invite parties to submit and serve a position statement, discussing why their proposed data collection and reporting system are important to future public policy on undergrounding.

Teleconference Information: Conference call capabilities will be provided by calling 1-800-966-6338; reference Margaret Moore, and followed by the pass code # 02060148. The meeting is wheelchair accessible. Participants attending the workshop via conference call are asked to put their phones on mute when they are not addressing the workshop participants in order to reduce background noise.

If you will not attend then please provide your written or electronic comments before the close of the workshop. Send them electronically to chris@stiehlworks.com and dkl@cpuc.ca.gov or mail them to both:

Summary: LATE FILED. On January 30, 2002, David Ebershoff, counsel to Hillview Water Company, Inc. (Hillview), had a telephone communication with ALJ Ryerson. A draft of the Hillview's Response to Water Division's 'Notice of Substitution of Commission Staff of Record and Counsel and Request for Continuance in the Hearing Schedule' (attached to the notice) was used. Referring to the Hillview's opposition to the request for continuance of the evidentiary hearing, Ebershoff responded that an opposition was being prepared, but was still in draft form.

	I94-04-003	Order Instituting Investigation into Changing the Method, Timing and Process for Periodically Deriving a Reasonable Revenue Requirement for the Southern California Edison Company

Summary: On February 14, 2002 at 4:00 p.m., at the CPUC in San Francisco, the following person(s) met with Lynn McGhee and Laura Krannawitter, Advisors to Commissioner Duque, to wit: Marc Joseph, attorney for the Coalition of California Utility Employees (CUE). Mr. Joseph stated that the Proposed Decision of ALJ Sullivan erred in eliminating the employee safety mechanism for Edison employees; that existing safety mechanism had been effective in dramatically reducing the employee injury rate; that the Commission should not send the wrong message that it was no longer concerned with employee safety. Finally, Mr. Joseph stated that CUE agrees that it would be appropriate to continue the mechanism but lower the benchmark to the average of the previous seven years.

2/20/02 R02-01-011 Order Instituting Rulemaking regarding the
implementation of the suspension of direct access
pursuant to Assembly Bill 1X and Decision 01-09-060

Summary: On February 15, 2002 at 1:00 p.m., at the CPUC in San Francisco, the following person(s) met with Commissioner Bilas, who participated in the meeting via telephone, and with Kevin Coughlin and Julie Fitch, Advisors to Commissioner Bilas, to wit: Scott Blaising, Esq., representing the City of Cerritos ("Cerritos"), and C. Susie Berlin, Esq., representing the City of San Marcos ("San Marcos"). Both counsel expressed their concerns with the draft decision relating to the suspension of direct access, and specifically, the handling of existing community aggregation programs. They explained that both cities are participants in the development of the Magnolia Power Project; that both the alternate decision of Commissioner Brown and the draft decision of ALJ Barnett would eliminate the possibility of the cities utilizing their community aggregation programs to deliver energy from the proposed Magnolia Power Project to the residents and businesses within their respective jurisdictions. Ms. Berlin explained that San Marcos preferred the alternate decision of Commissioner Brown to the draft decision of ALJ Barnett with regard to the September 20, 2001 proposed suspension date because it is legally sound and more firmly supported by public policy.

2/21/02 R02-01-011 Order Instituting Rulemaking regarding the
implementation of the suspension of direct access
pursuant to Assembly Bill 1X and Decision 01-09-060

Summary: On February 15, 2002 at 2:00 p.m., at the CPUC in San Francisco, the following persons representing the California Large Energy Consumers Association [CLECA] met with Commissioner Duque and his Advisor, Laura Krannawitter; Kevin Coughlan, Advisor to Commissioner Bilas, and David Gamson, Advisor to Commissioner Brown, at an all-party meeting also attended by those persons listed on the sign-in sheet attached to the Notice, to wit: William H. Booth, Esq. Mr. Booth stated

CLECA's support for Commissioner Brown's Alternate Draft Decision on suspension of direct access. He took issue with TURN that Commission suspension of direct access effective July 1, 2001 would not constitute retroactive action because July 1 follows the date of enactment of AB 1X; that the action at issue is the Commission's action to implement the statute pursuant to the Legislature's delegation to set the date of suspension, and a decision now to suspend effective July 1, 2001 would clearly amount to retroactive suspension. Mr. Booth also stated that counsel for TURN speculates when he asserts that the level of direct access exit fees will be very large; that neither TURN nor any other party presently knows the level of exit fees that will represent the appropriate cost responsibility of direct access customers and that the Commission will only be able to establish the same following evidentiary hearings, which have not yet been held. Finally, Mr. Booth urged Commissioner Duque to consider reconciling the language in the Alternate Draft Decision with respect to assignments, transfer between ESPs and termination dates. He suggested that the Commission simply use September 20, 2001 as the date for establishing the set of customers eligible to engage in direct access prospectively.
